1926

The Science Reports of the Tôhoku Imperial University, Sendai, Japan, Second Series (GEOLOGY), established in 1912, are issued at irregular intervals. The price of each number depends upon its length and the number of illustrations.

Vol. I.	Complete; 1912-1914 - - - - -	Yen 3.80
Vol. II.	Nos. 1 and 2 already published; 1914-1915. Yen 1.20. No. 3 in preparation.	
Vol. III.	Complete; 1915-1918 - - - - -	Yen 6.00
Vol. IV.	Complete; 1915-1919 - - - - -	Yen 4.60
Vol. V.	Complete; 1918-1921 - - - - -	Yen 6.00
Vol. VI.	Complete; 1922 - - - - -	Yen 8.00
Vol. VII.	Complete; 1922-1925 - - - - -	Yen 7.30
Vol. VIII.	Complete; 1924-1925 - - - - -	Yen 3.70

Lately published are:

Vol. VII

- No. 1. H. YABE: Notes on Some Mesozoic Plants from Japan, Korea, and China, in the Collection of the Institute of Geology and Palæontology, Tôhoku Imperial University. I. 1922 - - - - - Yen 1.90
- No. 2. H. YABE and S. HANZAWA: A Geological Problem Concerning the Raised Coral-Reefs of the Riukiu Islands and Taiwan; a Consideration Based on the Fossil Foraminifera Faunas Contained in the Raised Coral-Reef Formation and the Youngest Deposits Underlying It 1925 - - - - - Yen 1.20
- No. 3. { S. ENDÔ: *Nilssonia*-Bed of Hokkaidô and Its Flora
H. YABE and S. HANZAWA: Nummulitic Rocks of the Islands of Amakusa (Kyûshû, Japan) } 1925 Yen 2.10
- No. 4. { H. YABE and S. NOMURA: Notes on the Recent and Tertiary Species of *Thyasira* from Japan
H. YABE and S. HANZAWA: Notes on Some Tertiary Foraminiferous Rocks from the Philippines
H. YABE and T. NAGAO: New or Little-Known Cretaceous Fossils from North Saghalin (Lamellibranchiata and Gastropoda)
H. YABE and S. SHIMIZU: Japanese Cretaceous Ammonites Belonging to Prionotropidæ } 1925 Yen 2.50

Vol. VIII

- No. 1. I. HAYASAKA: On the Fauna of the Anthracolithic Limestone of Ômi-Mura in the Western Part of Echigo 1924 - - - - - Yen 2.60
- No. 2. I. HAYASAKA: On Some Palæozoic Molluscs of Japan. I. Lamellibranchiata and Scaphopoda 1925 - - - - - Yen 1.10

Vol. IX

- No. 1. { H. YABE and S. HANZAWA: A Foraminiferous Limestone, with a Questionable Fauna, from Klias Peninsula, B. N. Borneo
H. YABE and S. HANZAWA: *Choffatella* SCHLUMBERGER and *Pseudocyclammia*, a New Genus of Arenaceous Foraminifera
H. YABE and S. HANZAWA: Geological Age of *Orbilolina*-Bearing Rocks of Japan
H. YABE and T. NAGAO: *Præcaprotina*, nov. gen., from the Lower Cretaceous of Japan } 1926 Yen 1.30

Vol. X

- No. 1. { H. MATSUMOTO: On Two New Mastodonts and an Archetypal Stegodont of Japan
H. MATSUMOTO: On Two Species of Fossil Pinnepedia from Kazusa and Saghalin
H. MATSUMOTO: Some Fossil Cetaceans of Japan } 1926 Yen 1.80
